Pullman has committed to sustainable development by participating in Accor's Planet 21 program. Health, nature, carbon footprint, innovation, local development, employment and social dialog: solutions for a better world at every level.

Health

- Balanced dishes served in the restaurant
- Eco-friendly cleaning products for cleaning rooms

Nature

- Reuse of towels suggested to guests
- Faucets fitted with water flow regulators
- Water efficient laundry to reduce water consumption for every wash
- Recycling of batteries with sorting carried out at the hotel
- Recycling of paper and cardboard with sorting
- Recycling of glass with sorting carried out at the hotel
- Recycling of food waste for compost or energy

Carbon footprint

- Energy-saving light bulbs in the reception areas
- Energy-saving light bulbs in the rooms
- Central switch in rooms for greater comfort and energy savings
- Recovery of ambient warmth to optimize heat consumption

Innovation

- Certified sustainable paper for hotel printing purposes

Local environment

- Local food products promoted in the restaurant
- No endangered seafood to appear on our restaurant menus
- Training for personnel on responsible actions toward the environment

Pullman Cologne was nominated for the Certified Star-Award 2014/2015 and was placed under the top 15 in the category „Certified Green Hotel“.
